SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT

FEB 12 2003

Assistant Commissioner for Patents

Technology Center 2600

Transmitted herewith are Forms PTO/SB/08A and PTO/SB/08B providing material that may be relevant to the subject application. It is respectfully requested that these documents be considered by the Examiner and an initialed copy of the form be returned to the undersigned. It is believed that this disclosure complies with the requirements of 37 CFR §§ 1.56, 1.97 and 1.98 and the MPEP § 609. If for some reason the Examiner considers otherwise, it is respectfully requested that the undersigned be called so that any deficiencies can be remedied.

Submission of these documents is consistent with the broadest interpretation of the duty of disclosure. In accordance with the rule for patent prosecution, such a submission is not to be construed as an admission that the information cited in the Supplemental Information Disclosure Statement is, or is considered to be, material to patentability as defined in §1.56. Assignee, coaXmedia, Inc. respectfully reserves the right to challenge a conclusion that any of the submitted material represents information constituting prior art to the present application or that the information that applicant has located would be of the type used by one of ordinary skill in the art in solving the problems addressed in the present application. The submission of these materials is consistent with the duty of disclosure and should not be interpreted as an indication that Assignee has made a prior art search such that the Examiner should not undertake to conduct an independent prior art search.

Assignee submits material that is listed in an International Search Report for a corresponding PCT application. A copy of the Search Report is provided for the convenience of the Examiner. Assignee notes that the Search report asserts that all pending claims are obvious in light of two pieces of "Y" art. Assignee does not accept this preliminary conclusion and invites the Examiner to consider the substantial differences between the cited art and the pending claims.

For the convenience of the Examiner, Assignee submits U.S. Patent No. 5,787,483, a corresponding U.S patent to EP0765061 cited as "Y" art.

Dated: February 5, 2003

Respectfully submitted,

Kevin E. Flynn
